What to bring and not bring:

- Bring a Bible.
- Don't Bring Cell Phones or electronic devices for communication
 - We want students to be totally engaged and not distracted by the outside world during this important weekend and so for all camps and retreats we don't allow students to have these devices with them. We would ask that you just keep their device for the day. If a student brings a device, we will have them check in their phone when they arrive for the day and return it at the end of the day.
